The Bouffon Mask program: The Ecstasy of Mocking **By Maria Codinachs**

Where do bouffons come from?
What is their dramatic potential?

Bouffons mock the very essence of society. They ruthlessly ridicule our fragile humanity, deliriously revealing the truth.

Their purpose is to have fun mocking humans and to achieve this they will use everything they find, this is their power: they play with everything!

To distort ourselves in order to provoke laughter is a very old human practice.

During the workshop we will work with:

- The Mysterious: The Divinities, the Prophets, The Witches and the Demons.
- The Fantastic: Beings that are inspired by humans, animals and technology.
- The Outcasts: the mad, the excluded, the poor and the miserable...
- The Bouffons behaviour: Pleasure and freedom.
- Childhood: innocence and cruelty.
- The hierarchy of Bouffons and gangs.
- Creation of a Bouffon.
- The relationship with man and the Gods, the destiny and the Universe.
